

Business idea:

Use of elastic formliners for texturing the exposed face of concrete surfaces

Founded in 1968 in Germany

Standard Formliner
more than 250 patterns and
designs
1, 10, 50, 100 re uses
elastic Polyurethane rubber,

Special Formliners
one off pattern
designs: customer request

RECKLI flexible formliner for concrete precast applications

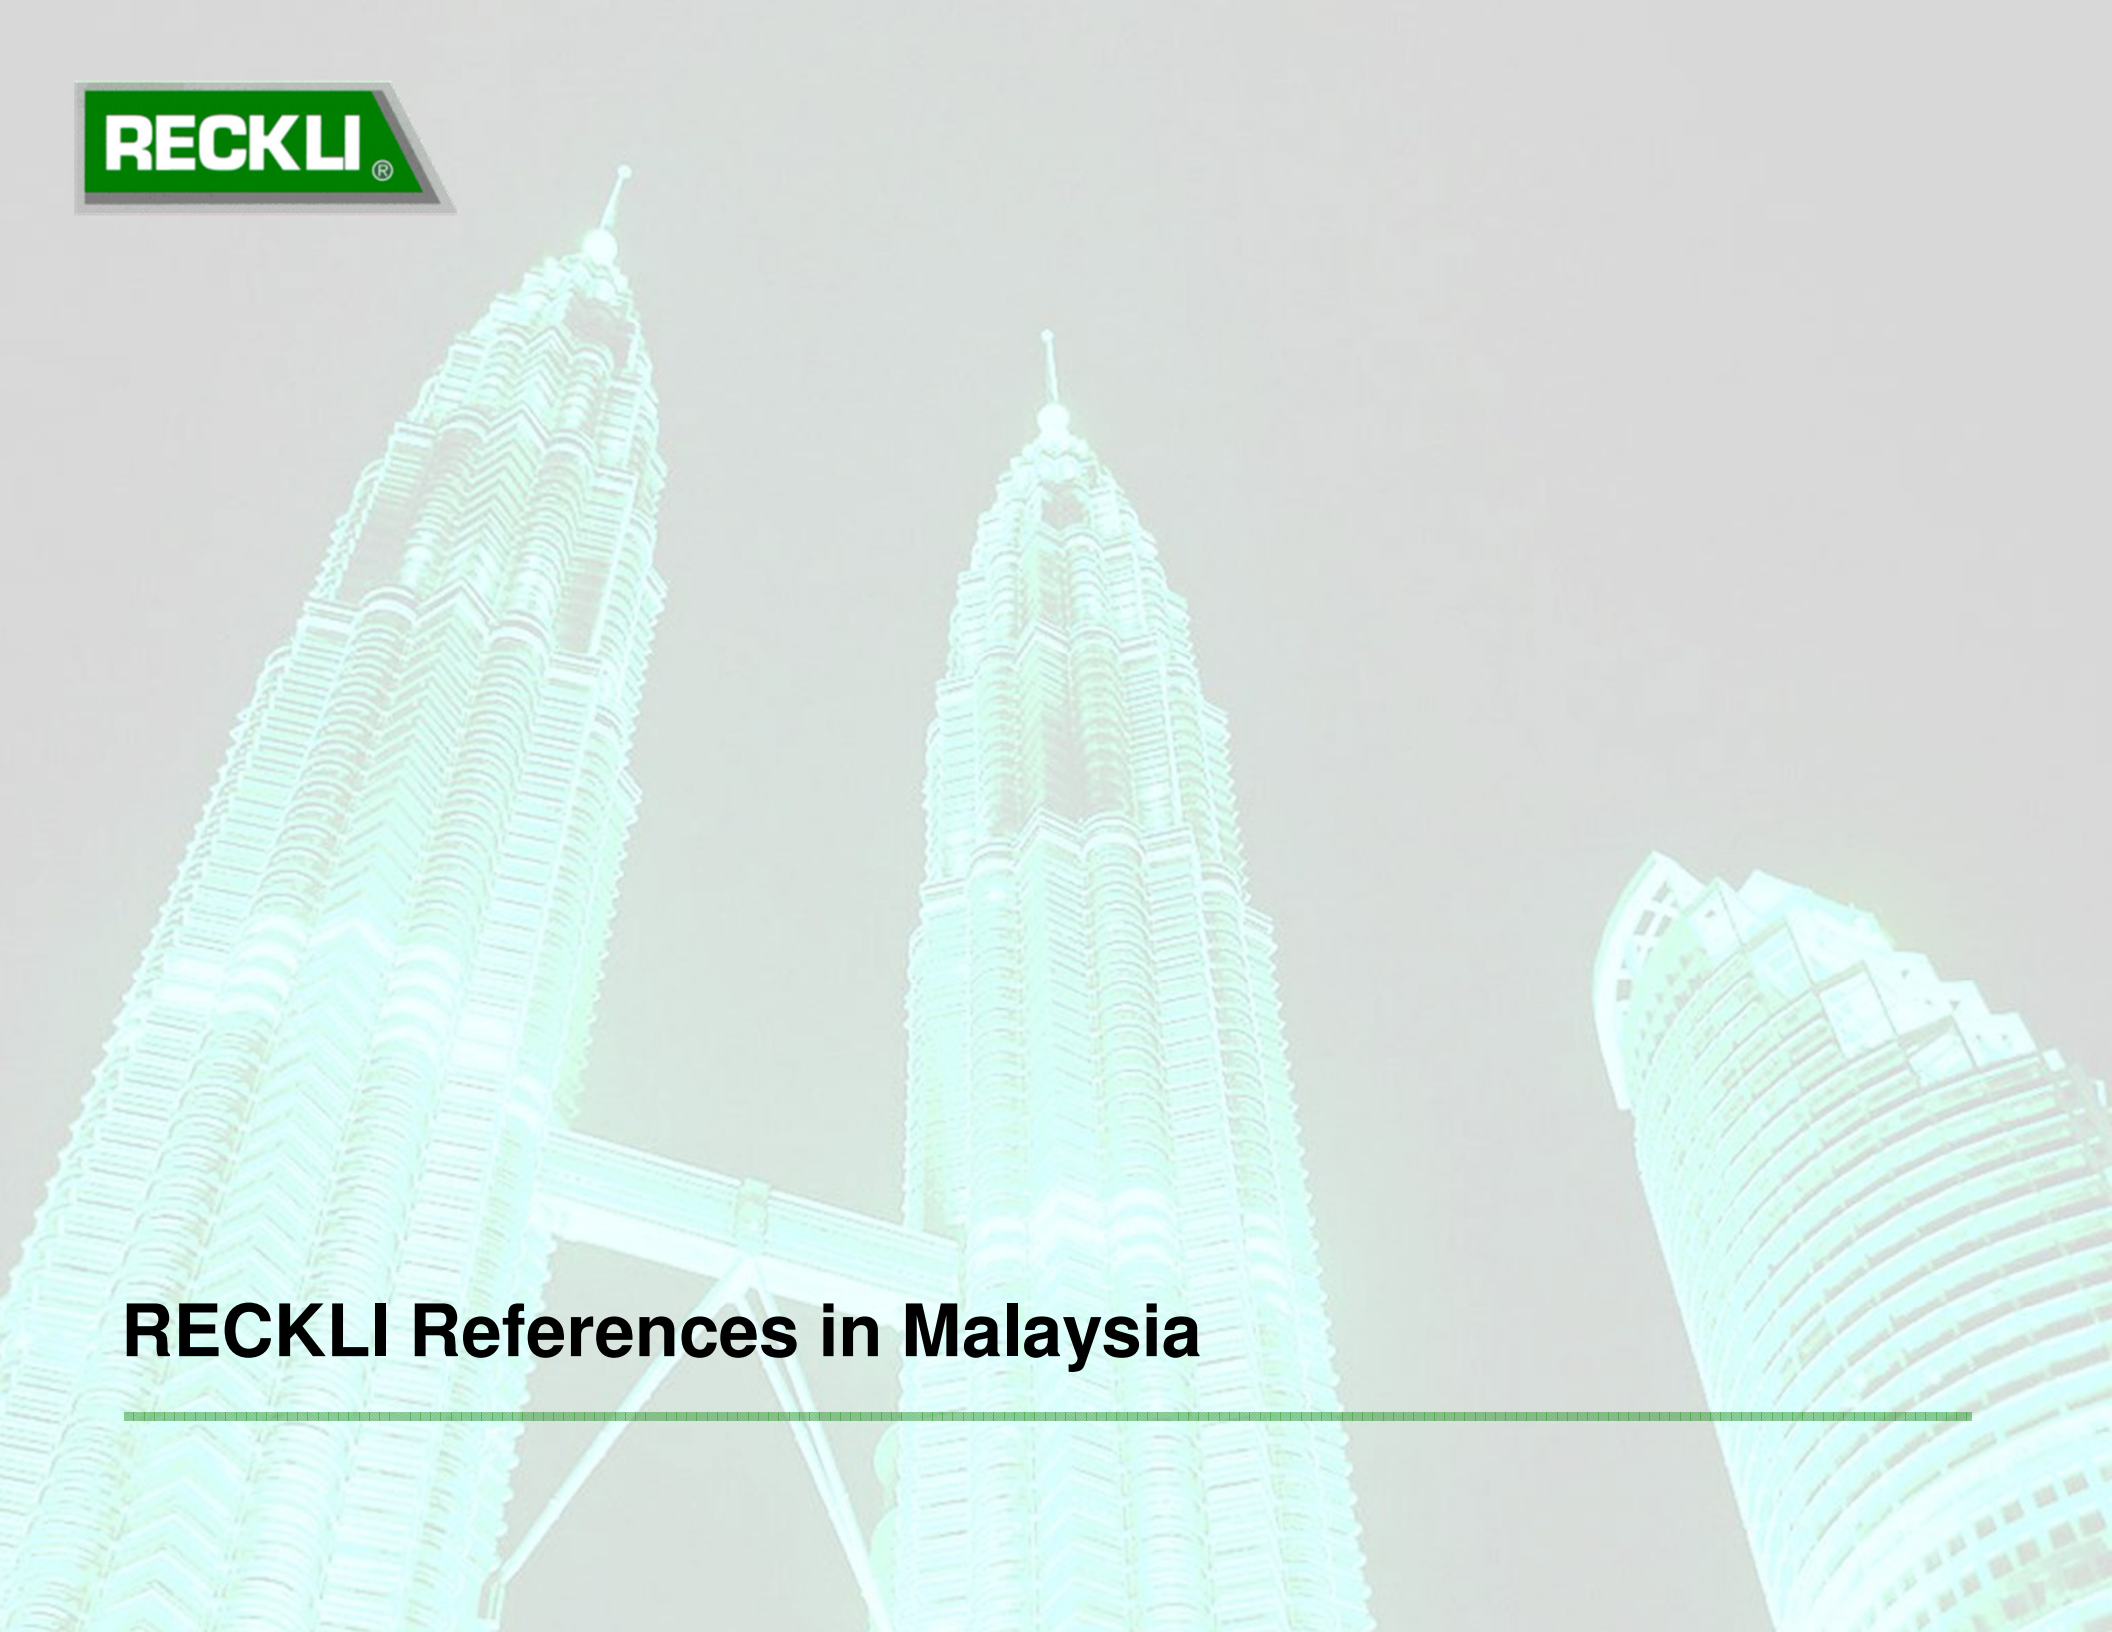

RECKLI flexible formliner for cast in-situ applications

RECKLI flexible formliner for cast in-situ applications

The logo for RECKLI, featuring the word "RECKLI" in white, bold, uppercase letters on a green rectangular background with a white border and a registered trademark symbol (®) to the right.

RECKLI®

A low-angle, upward-looking photograph of the Petronas Towers in Kuala Lumpur, Malaysia. The two towers are the central focus, with a skybridge connecting them. To the right, the top of the cylindrical, curved Merdeka 118 tower is visible. The image has a light, hazy, and slightly desaturated appearance.

Advantages RECKLI Formliner

- World leader in the design and manufacture of elastic formliners
 - Huge range of more than 250 standard patterns
 - Availability of big sizes,
 - Repairable
 - Complete system:
adhesive, repair kits, release agents, color stain
 - Polyurethane liquid rubber for self made formliner
 - Reuseability (100 guaranteed)
 - Adapted reuses to projects:
1, 10, 50 and 100 reuses
 - Worldwide references (see pattern book)
 - Mould making facilities (custom designs)
 - Website: www.reckli.com
-
